The 2015 open enrollment period to sign up for health coverage through the Health Insurance Marketplace begins November 15, 2014 and runs through February 15, 2015. As part of our World AIDS Day activities, AIDS.gov is hosting a webinar for HIV service providers, community-based organizations, Federal staff, and other providers on open enrollment and the critical role the Affordable Care Act plays in the implementation of the National HIV/AIDS Strategy.

Learn about the benefits of the healthcare law for people at risk for or living with HIV, and resources to assist HIV stakeholders in their Marketplace outreach and enrollment efforts, particularly among communities of color and other populations disproportionately impacted by HIV.

Time will be available for viewer questions.
